

Champion Oil Filter Update

12 May 2023

Dear Distribution Partner,

I am proud to state we have shipped record quantities of CH48108-1 and CH48110-1 Oil Filters during the first quarter of 2023 as our supply chain recovers. We are on track to catch up on all outstanding orders of each oil filter part number by the end of 2023. As we streamline our operations to ensure the best performance and quality possible, please note the following:

- Champion has discontinued the CFO-100-1 and CFO-101 Oil Filter Elements. As of today, May 12 2023, any outstanding orders are cancelled. Champion will not accept any new orders for CFO-100-1 or CFO-101. The alternative to these part numbers is a new oil filter compatible with your customer's engine.
- Champion now requires a minimum order quantity for all filter part numbers that will equal a full pallet. Please ensure all future oil filter orders are for a quantity that is a multiple of our new MOQ:

Champion Part Number	MOQ/ Required Order Multiple
CH48104-1	336
CH48109-1	336
CH48111-1	336
CH48103-1	420
CH48108-1	420
CH48110-1	420

Sincerely,

Ashby Elliott
